# *Mauritius*

In the heart of the Mascarene archipelago

# Mauritius

Island

Located in the heart of the Mascarene archipelago in the Indian Ocean, Mauritius' 330 km beautiful coast is bordered by lagoons and coral reefs.

Only a mere 200 km distance away from "Reunion Island", Mauritius is emblematic for its pristine white sandy beaches and magnificent turquoise lagoons.

Mauritius enjoys a tropical climate with a mild winter (20 to 24 °C) and warm temperatures in summer (28 to 33 °C).

---

## Languages

The official language is English but the majority of the Mauritian population is bilingual and speaks both English and French.

---

## Currency

The currency of Mauritius is the Mauritian Rupee. There are international banks in all major cities to exchange foreign currencies.

---

## Visa

Nationals of the European Union do not require visas for stays of less than six months in Mauritius. The Permanent Residence Permit is a program for foreigners who are looking to buy a residence, stay and work in Mauritius. Open to investors, retirees, professionals, self-employed entrepreneurs and their families. Permanent residency can be obtained by investing a minimum net amount of USD 375 000 or above.

---

## Time Zone

The slight time difference between Mauritius and Europe (Paris +2 hours in summer & +3 hours in winter/GMT + 4) make the island an ideal destination. An added bonus is direct flight access around the world.

# Why invest in *Mauritius?*

It is possible for foreigners to acquire properties only within the special residential schemes named PDS (property development scheme)

The benefits of the PDS scheme are:

- Acquisition of a freehold property.
- Persons acquiring a residence at a minimum price of \$ 375000, obtain automatically a permanent residence permit for the whole family
- Sale Off-Plan governed by VEFA contracts ensures the financial bank guarantee for good completion.
- The VEFA contract is a mode of acquisition firmly guided by the law. The French Civil Code is applicable in Mauritius for any property purchased.
- Upon signing the contract and before completion, the purchaser becomes the owner of land and construction in progress.
- Opportunities to resale to foreigners in foreign currency.
