These plots represent the ultimate opportunity for foreigners to acquire a freehold land along the coast in Mauritius as the new PDS and Smart City developments do not allow this type of acquisition.

Since the launch in 2008, the value of properties has steadily increased and resale benefit from an average capital gain of 20 to 25% after 3 years of ownership.

Today, Anahita Mauritius welcomes over 220 families of investors benefiting from permanent residency in Mauritius, and several have trusted the project over the years, acquiring properties in different neighbourhoods of the estate.
